

# **Web based game with two players**

**Name:RaghavEE M**  
**Reg No:39110822**

The project 'DESIGNING OF CHESS GAME USING JAVA SWING' implements a classic version of Chess with a Graphical User Interface (GUI). The Chess game follows the basic rules of chess, and all the chess pieces only move according to valid moves for that piece. The implementation of Chess is for two players . It is played on an 8x8 checked board.Chess program is a great user friendly game for two players.

## ***Goals of the Project:***

- 1)First goal is to allow two users or players to play the game interactively from remote locations.
- 2)The second goal will be that the program should be working and allow the users to play the game.

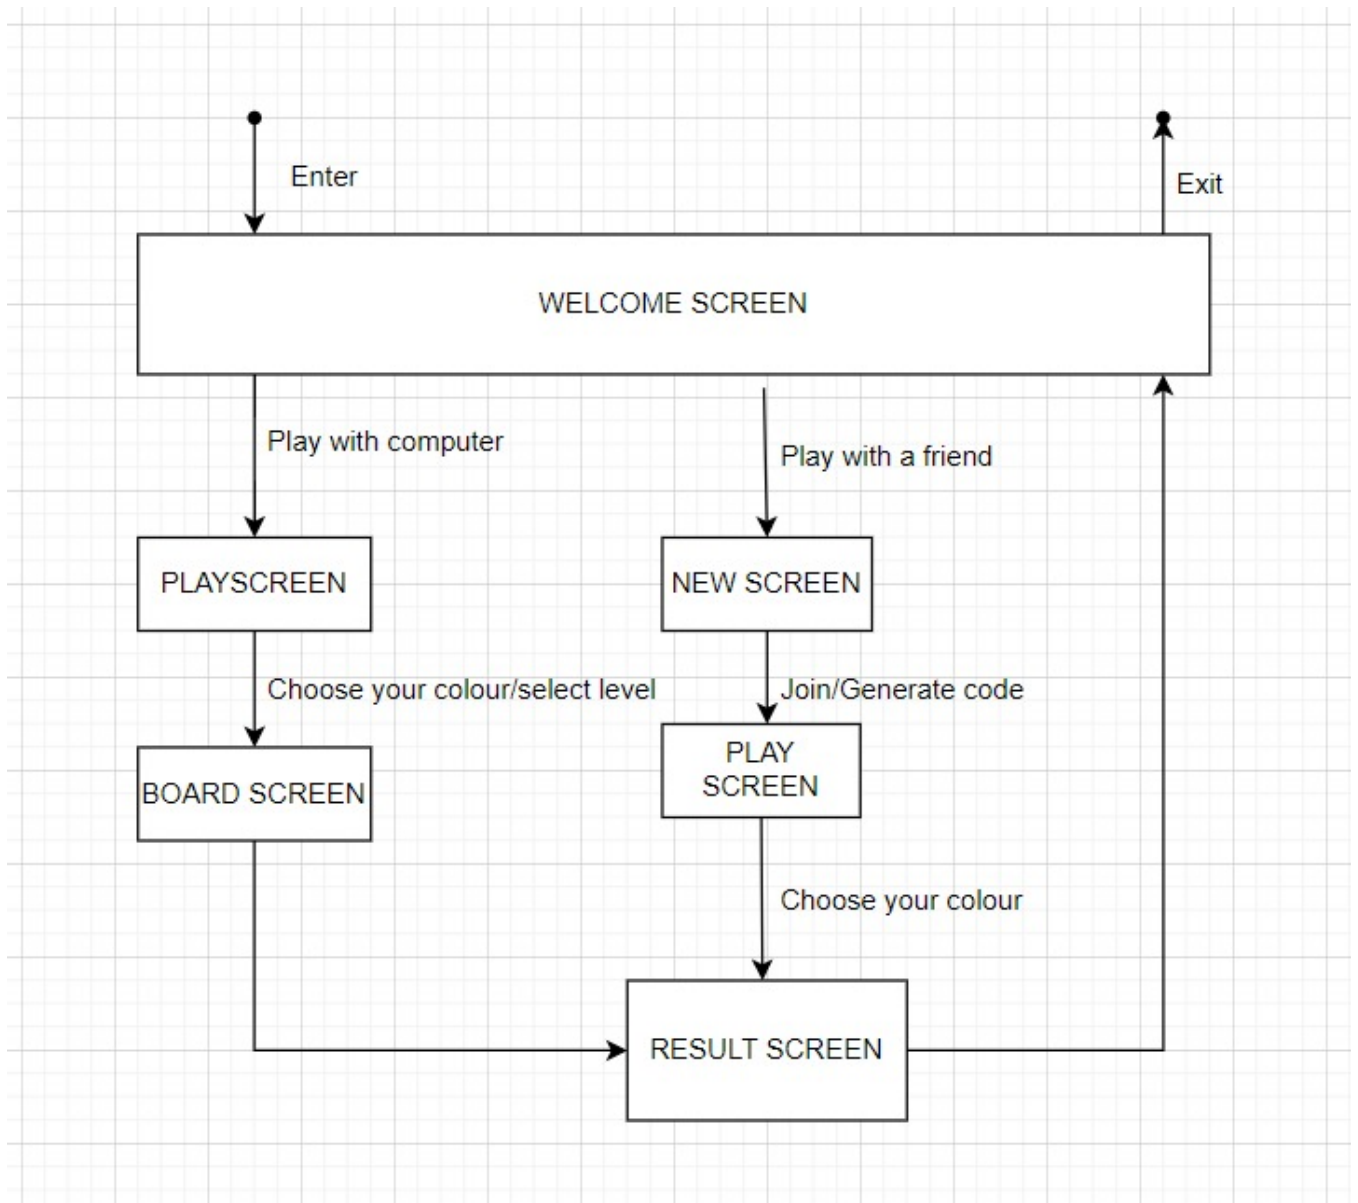

## ***Benefits of the chess game:***

- 1)Improves problem solving technique.
- 2)Improves logic and reasoning skills.
- 3)Increases patience and persistence.
- 4)Improves decision making skills.

## ***Software Requirement Specification:***

Language: JAVA with graphics (JAVA 8 Environment).  
Platform: Mac operating system.  
Software: IntelliJ idea IDE software
